Edie do you think this figure one is good I am taking it for my throat & lungs. Dr Porter has called on me three times in few wks to get Chas to do work for him he says Edie certainly deserved a good man. I said she got him too! He thinks it would be a fine place there for Chas to work and the place for me. his Brother is in Real Estate Business, building is booming there he says. I called Archie up when I got your letter (we have a phone in house) and told him of Wilbur's death. the poor Mas & Dadie's Birthdays are gone and still nothing from Jeff I am ashamed to mention it. and Chas is doing fine this Spring but there is

so much we need I have not
